

# ROOF REPLACEMENT AT ORPHANAGE

*Improving safety and living conditions during the rainy season*

## Project overview

During the rainy season, the old corrugated iron roof had become damaged and leaked in several places. Water dripped into the rooms of the orphanage, causing visible damage to the ceilings and affecting the living conditions of the children. Since repairs were no longer sufficient, the complete roof was replaced.

## Before

The roof was leaking and water was entering the building, causing damage inside the rooms.

Water damage inside the building

## After

A new roof was installed, providing reliable protection from rain and improving safety and comfort.

Newly replaced roof with improved protection

## Project data

- **Location:** Orphanage Likoni AID for Children Centre
- **Project budget:** 208.000 KeS
- **Approximate value:** 1.400 Euro / 1.600 USD
- **Execution:** May 2026

## Impact

The new roof has restored protection against heavy rain and helps create a safer, healthier environment for the children.
